SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Voluntary Protection Program (VPP) information collection. The VPP is a partnership between labor, management, and government designed to recognize and promote excellence in safety and health management. In order to participate in the VPP, an applicant submits an application and an annual self-evaluation containing a detailed description of its safety and health management programs to the OSHA, which uses the information to conduct a preliminary analysis of the worksite's programs and to make a preliminary determination regarding the worksite's qualifications for the VPP. Occupational Safety and Health Act of 1970 section 2(b)(1) authorizes this information collection. *See* 29 U.S.C. 651(b)(1).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA

and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0239.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on August 30, 2017 (82 FR 41294).

In order to help ensure appropriate consideration, comments should mention OMB Control Number 128-0239. The OMB is particularly interested in comments that:
